

Essential Move Sales Opportunities

Key Features of Essential Move Lite

Designed for

Essential Lite is a flexible lightweight standalone device which provides a fast and simple way to process card payments. Ideal for businesses of all sizes that need to accept fast secure payments in-store or on the go.

Features

1. Being a lightweight and smaller device makes it easier to handle/pass around, and fitting comfortably under the counter and out of the way
2. The large, colour touchscreen enables both merchandise staff and customers to easily check payment details to encourage faster transaction processing time.
3. Ability to choose from 3 connectivity options: 4G, 3G or IP Broadband via Ethernet without losing the complete mobility of the device, and helping customers to never miss out on card payment sales!
4. Good battery life. Essential Lite Move runs for up to 8 hours (and could be slightly less depending on the volume of transactions) when being used off the base unit if fully charged overnight

Key Features of Essential Move Plus

Designed for

Businesses of all sizes that need a device that can integrate with their PC EFTPOS certified point of sales in order to accept fast secure payments. These include cafes, restaurants, supermarkets, hotels and retail stores.

Additional Features

If the device loses Broadband connection, Essential Plus Move can be easily switched by the customer to the 4G/3G connection via the internal modem in the device. The PC EFTPOS client on the POS will need to be configured to use the device's 4G/3G capability when the backup is required.
